## BROADCASTER AND COMEDIAN

I started radio in 2000 and have presented for some of the UK's most prestigious radio stations locally, regionally and nationally, including Heart London and BRMB in Birmingham.

Having interviewed the likes of Milton Jones, Stephen Merchant, Rhod Gilbert and Sarah Millican I went on to complete the Amused Moose stand-up course, performing over 200 gigs in the UK including the infamous King Gong night at The Comedy Store. I also co-founded a successful London comedy night which ran for two years.

I love writing scripted character comedy and have two completed sit-com pilot scripts under my belt, with further ideas in the development stage. My aim is to have a TV show optioned or commissioned within the next twelve months.
