### OBJECTIVE

To pursue a professional career as a Cinematographer to expose skills and expertise in improving new style to movies.

As a teenager, I felt an immediate desire to understand the visual language and I knew that photography would be my profession. I know the importance of capturing the moment and I work with the belief that every picture tells a story.

I am highly self motivated, innovative, adapt quickly to dynamic environments, and work well under pressure.

My interest in photography dragged me to moving frames. From then am totally in love with it and proved my excellence after my graduation in Film and Television studies, Auckland, New Zealand.

For two years I worked as a photographer's assistant in India on fashion shows, model shoots and advertising. As a photographer, I am able to work comfortably among people with careful attention to detail and composition.

I have worked as a DOP Assistant / Grip for a Feature Film "Urban Turban" made in Auckland, New Zealand. Opening shots of the film, Cityscapes and Ariel Cinematography shot by me.

Few of my works:
