KENNEDY

How is that working out living in his apartment in the city.

TOBEY TENMA

It's working out just fine.

ALEJO

what is your dad doing now? Is he still working at the Ministry of science?

TOBEY TENMA

unfortunately not. Last I herd of him while I was at the circus is that he got fired from there because of the attacks Burton put on white house. Last I herd he works in Washington DC.

KENNEDY

Is he working for President Johnson?

TOBEY TENMA

LYNDON JOHNSON

Tenma, good to see you

TURNER TENMA
it's a pleasure to see you Mr. President.

Turner and President Johnson sit down in the oval office

LYNDON JOHNSON
so what brings you in on this wonderful morning.

TURNER TENMA
Well Mr. President, I had a really great idea for a new robot base that my partner Dr. Hyde and I are working on. And here are the blueprints that we are working on.

Turner shows Johnson the blueprints

Johnson starts looking at the robot factory blueprints

LYNDON JOHNSON
well it sounds like a really good idea Tenma. unfortunately, the war in Vietnam is really out of control and so far, Senator Goldwater has been saying that I'm soft on the soviets. But now with this robot base this will get me re-elected easily. Do you mind if I keep this?

TURNER TENMA
absolutely Mr. President.

LYNDON JOHNSON
I will see if the congress will pass this robot base which I'm pretty sure they will pass.

TURNER TENMA
sounds great Mr. President.

FADE TO:

INT. DR. HYDE'S ROBOT FACTORY-NIGHT

Turner walks into the robot factory and as he walks into the factory a lot of robots are being built

MARTIN HYDE
So what did the president say?

TURNER TENMA
he says he is going to make sure congress the base the plan and he also says they want to double the robots if he wins re-election.

MARTIN HYDE
thats perfect I also want to work on another project that will really turn this world around.

TURNER TENMA
And what would that be?

MARTIN HYDE
I want to build another teenage robot very similar to what Tobey was.

TURNER TENMA
that would be great Martin. That boy is not Tobey, Tobey has been dead for 3 years now. Hopefully the robot we build actually can age just like a human being.

MARTIN HYDE

I'm sure he will Turner. What about Dr. Elefun, is he taking care of Tobey.

TURNER TENMA

That's impossible I sent Tobey to the circus there is no way Elefun would of got Tobey back.

MARTIN HYDE

He is what my project would look like?

Hyde shows Tenmma a red teenage robot with gold hair

MARTIN HYDE

He would be a lot more aggressive then Tobey but he would be a great work of art. I call him...Atlas and he would replace Tobey and help you get the ministry of science from Elefun.

TURNER TENMA

he is beautiful. Start building him.

MARTIN HYDE

with pleasure.

All of a sudden, Hyde starts building Atlas and using the same chemicals used to create Tobey. Hyde later dumps red energy into the chemicals, the chemicals start forming up into a red robot body and with gold boots.

ALEJO

Tobey, Do you really think watching this is important?

TOBEY TENMA

Alejo even though we are too young for politics we have to watch this and see what has been happening and if my name is cleared.

CBS NEWS REPORTER(TV)

ladies and gentlemen, the president of the united states will make his state of the union to the congress and to the senators. Now here comes Lyndon Baines Johnson

TOBEY TENMA

this is it!!...

everybody in the audience starts clapping

LYNDON JOHNSON

Good Evening my fellow citizens in this coming month is going to be election year and you all will come and make a choice about who you will choice whether it's myself or senator Barry Goldwater of Arizona. But also I have a really special News I have just approved a plan by Dr. Turner Tenma and Dr. Martin Hyde to build a base to have that base be open to the public.

ABERCROMBIE

Turner Tenma? isn't that your dad?

TOBEY TENMA

thats illegal!!!! he can't build a base that is going to expose more robots and it's going blow up into chaos!!!!

LYNDON JOHNSON(CONT'D)

I am also going to continue the plan that President Kennedy started in with drawling troops from Vietnam and we will start sending battleships into the gulf of Tonkin to watch over Vietnam's ships. This is what I purpose to protect the citizens of American and I encourage the congress to base this robot base. Thank you and god bless America

TOBEY TENMA

this is totally deceiving. He is going withdrawal troops but then he approves a robot base that my dad gave to him. Something is not right!!!!

KENNEDY

what are we going to do now?

TOBEY TENMA

we have to approach Senator Goldwater !!!...

ABERCROMBIE

WHAT?!...why?! dude he's a politician we wouldn't be able to talk to him. Tobey that is crazy.

TOBEY TENMA

Abercrombie, if don't do anything about this my dad and Hyde are going to destroy the world and also destroy this country and I know he will.

KENNEDY

what makes me you think that Tobey?

TOBEY TENMA

Elefun told me after my dad got rid of me he quit the ministry of science and he committed crimes and erasing his true identity and fraud his way into that cabinet position working for the president. He is using the president and making him do what he wants and it's going to have bad consequences in the end!!!!...

CUT TO

Another soldier hears the screaming and sees the soldier dead

ARMY SOLDIER 3

code red, code red, we have a killing inside the boat!!!!

Another army soldier hits the alarm and alarm starts going off and Atlas enters the top part of the ship

More soldiers take out at A33 rifles, Atlas blasts more thunder and lightning at the soldiers killing them, More Troops come and shot at Atlas, Atlas sprays flames out of his arms and burns more troops and kills them

DONOVAN ELEFUN

It's okay Tobey these things just happen and there is sometimes you just can't do anything about it.

TOBEY TENMA

do you really think my dad is behind all the robot base talks?

DONOVAN ELEFUN

Well Tobey, Lets just hope that base does not get built cause if it does a lot of bad things can happen.

TOBEY TENMA

Dr. Elefun, Do you really think the world is going to be safe with a lot of robots. Like what if something happens to this planet and the Earth becomes a weak planet.

DONOVAN ELEFUN

Tobey, you are over-reaching to all this. I think this planet is

going to last for a long time not matter what happens in this decade. Maybe tomorrow you should fly around the city, get some fresh air

TOBEY TENMA

that sounds like a good idea. And Elfun, have you talked to my dad recently?

DONOVAN ELEFUN

No Tobey, Your dad is a very dangerous man but I don't want you going after to him or Hyde I don't want anything to happen to you. Is that understood.

TOBEY TENMA

Astro Boy gets very angry and grunts his teeth and lasers starts powering up from his arms

ASTRO BOY

I am sure would love to blow your damn head off right now. What is your plan?!...

ATLAS

THE ANNOUNCER

the following is a public address on behalf of the Goldwater-Miller campaign here is Ronald Reagan, Mr. Reagan

CUT TO

Reagan getting ready for the speech

BARRY GOLDWATER

Now I know you can do it Ronnie.

RONALD REAGAN

Yeah I'm only an actor Barry I don't know if I can make this speech

BARRY GOLDWATER

Ronnie, I have seen all the things you talk about and I know you will do well. Go out there and talk from your heart.

Reagan goes on the stage and he pulls out the speech from his coat pocket.

the crowd starts clapping and going nuts

RONALD REAGAN

thank you, thank you so much.

the crowd keeps on clapping

RONALD REAGAN(CONT'D)

thank you and good evening. the sponsor been identified but unlike most Television programs, hasn't been provided with a script. As a matter of fact, I have been permitted to choose my own words and discuss my own ideas regarding the choice that we face in the next few weeks. I have spend most of my life as Democrat I recently have seen fit to follow another course. I believe that the issues confronting us cross party lines.

ALEJO

he's right man.

RONALD REAGAN(CONT'D)

Now, one side in this campaign has been telling us that the issues of this election are the maintenance of peace and prosperity. the line that been used, "we've never had it so good" But I have uncomfortable feeling that this property isn't something on which we can base our hopes for the future. No nation in history has ever survived a tax burden that teacher a third of it's national income. Today 37 cents out of every dollar earned in this in. We haven't balanced our budget 28 our of the last 34 years. We've raised our debt limit three times in the last twelve months, and now our national debit is one and a half times bigger then all the combined debits of all the nations of the world. We have 15 billon dollars in gold in our treasury; we don't own an ounce. Foreign dollar claims are 27.3 billion dollars. And we've just had announced that the dollar or 1939 will now purchase 45 cents in it's total value.

Tobey and his friends continue to listen to the speech

ABERCROMBIE

what is he saying man?

TOBEY TENMA

he is saying that our economy is going to into chaos with my father building more weapons and it could happen if I don't stop him

the boys continue to listen to the speech in the seats

RONALD REAGAN(CONT'D)

You and I are told increasingly we have to choose between a left or right. Well I'd like to suggest there is no such thing as left or right. There's only an up or down. Man's old aged dream, the ultimate in individual freedom consistent with law and order, or down to the ant heap of totalitarianism. And regardless of their sincerity, their humanitarian motives, those who would trade our freedom for security have embarked on this downward course. In this vote harvesting time, they use terms like the "Great society," or as we were told by a few days ago by the president, we must accept a greater government activity in the affairs of the people. But they have been a little more explicit in the past and among themselves; and all of the things I now will quote have appeared in print. These are not republican accusations. For example, they have have voices that "the cold war will end through acceptance of not undemocratic socialism" Another voice says, "the profit motive has become outmoded. It must be replaced by the incentives of the welfare state." Or, "Our traditional system of individual freedom is incapable of solving the complex problems of the 20th century." Senator Fulbright has said at Stanford University that the consecution is outmoded. He referred to the president as "our moral teacher and our leader" and he says he is "hobbled in his task by the restrictions of power imposed on him by this antiquated document." He must "be freed," So that he so that he "can do for us" what he know "is best." And Senator Clark of Pennsylvania, another articulate spokesmen, defends liberalism as "meeting the material needs of the masses through the full power of centralized government."

RONALD REAGAN(CONT'D)

But as former democrat, I can tell you Norman Thomas isn't the only man who has drawn this parallel to Socialism with the present administration, because in 1936, Mr. Democrat himself, Al Smith the great American, came before the American people and charged that the leadership of his party was taking the party of Jefferson, Jackson, and Cleveland down the road under the banners of Marx, Lenin, and Stalin. And we walked away from his party and never turned

returned til the day he died-because to this day the leadership of that party has been taking that party, that honorable party down the road in the image of the labor socialist party of England.

TOBEY TENMA

my god we are in huge trouble!!!...

the boy continue to listen to the speech as Reagan delivers the last parts of the speech

RONALD REAGAN(CONT'D)

You and I have the courage to say our enemies, "There is a price we will not pay." "there is a point beyond which they must not advance." And this-this is the meaning in the phrase of Barry Goldwater's "peace through strength" Winston Churchill said, "they destiny of man is not measured by material computations. When great forces are on the move in the world, we learn we're sprits-not animal" And he said, "There's something going on in time and space, and beyond time and space, which, whether we like it or not, spells duty." You and I have rendezvous with destiny. We'll preserve for our children this, the last best hope of man on earth, or we'll sentence them to take the last step into a thousand years of darkness. We will keep in mind and remember that Barry Goldwater has faith in us. He has faith that you and I have the ability and the dignity and the right to make our decisions and determine our own destiny. Thank you very much.

All of a sudden the crowd starts going wild and starts clapping like crazy and Reagan steps off the stage

Tobey stops recording the speech

ALEJO

dude, that was a great speech that man is going to be a great president. Who was that guy?

TOBEY TENMA

I don't Alejo but whatever happens he is right it is our desinsty to save the world.

ADULT ATLAS

I love it. Now when I get my hands on Astro Boy he will regret dealing and fighting me. Also the world will be no more under my evil powers.

TURNER TENMA

I agree Atlas.

MARTIN HYDE

Also we can't be in this factory forever because then the government will find out about this place sooner or later.

TURNER TENMA

thats why I started making plans for another robot ship in space. and Atlas I even made a robotic white horse that you can ride on and it will allow you to go much faster then Astro Boy.

ADULT ATLAS

thats perfect. Now with my plans we just need to create a bomb that is really going to hit really bad. And soon planet earth will be more!!!!

FADE TO:

INT. ELEFUN'S PEN HOUSE, NEW YORK CITY-AFTERNOON

Tobey starts looking at the window

TOBEY TENMA

you know I really don't want to go into hiding Dr. Elefun but I think it's the only way that keeps people safe and so that people will forget about robots

Tobey starts walking to his room and he switches himself off and Tobey's robot body shuts down and Tobey goes into robot sleep

Dr. Elefun shuts the door and Dr. Elefun goes to work at the ministry of science

As Astro Boy goes into Robotic sleep a lot of events pass Astro Boy as he is sleeping such as Richard Nixon's election, the war in Vietnam ending in 1973, Richard Nixon's impeachment and him resigning because of watergate

RICHARD NIXON(ON TV)

there for, I shall resign the presideceny at noon tomorrow, vice president Ford will be shorn in as president.
(1974)

Another event passes as Astro Boy is in robotic sleep such Gerald Ford pardoning Nixon

GERALD FORD(ON TV)

I Gerald Ford, Do grant a full pardon on to Richard Nixon.

Another event passes by as Astro Boy is in robotic sleep such as the 1976 presidential election between Gerald Ford and Jimmy Carter and showing the highlights of that debate
(1976)

Gasoline prices doubling up because of inflation and Iran Hostage crisis

JIMMY CARTER(ON TV)

I want to speak to you first tonight about a subject even more serious then energy or inflation. I want to talk to you about a fundamental threat to american democracy. I do not mean our political and civil liberties they will endure. And I do not refer to the outward strength of America, a nation that is at peace tonight everywhere in the world, with unmatched economic power and military might. The threat is nearly invisible in ordinary ways. It is a crisis of confidence. It is a crisis that strikes at the very hear and soul and spirt of our national will. We can see this crisis in the growing doubt about the meaning of our own lives and in the loss of a unity of purpose for our nation. The erosion of our confidence in the future is treating to destroy the social and political fabric

of America.
(1979)

Another event happens as the 1980 election takes place and Ronald Reagan's election takes place

WALTER CONKITE(ON TV)

Now it turns this election is going to be landslide as
governor Ronald Reagan will become the 40th president of
the United States beating President Jimmy Carter

Elefun watches the election TV and he starts walking to Tobey's room and Tobey is still in robotic sleep

TOBEY TENMA

I haven't used my robot powers in 12 years. Plus all my powers might be outdated.

HANNAH RED

RONALD REAGAN

I haven't yet but I will do so really soon and ask them some questions about this base.

TURNER TENMA

It is for American interest Mr. President I wouldn't be building without the support of you and you and the american people.

RONALD REAGAN

well Tenma, you better be telling the truth cause if you lie to me!!, You will be sent to prison for life and your space operation would be disqualified from any type of legislation from both the democrats and Republicans and no congressmen or senator would promote it. Is that understood?

TURNER TENMA

yes Mr. President.

RONALD REAGAN

How is your son Tobey doing by the way. You never talk about him very much. Why is that?
