---

Matt is an award-winning music composer and songwriter for Media who has been steadily building a name for himself by creating dramatic, thrilling, emotional and suspenseful scores to several well received films including Tethered (2022) now on iTunes, Amazon Prime and other major VOD platforms. Most recently, Matt's music was used in a 2022 Apple iPhone 13 Commercial. Matt is also a writer and producer in a successful Production Music partnership with placements worldwide.

Award-winning director Dan Robinette has this to say about Matt – “Matt's talented ability to connect on an emotional level with his music always elevates the story in our films. It is the combination of visual and auditory elements that completes a film – without his incredible work, our films would be incomplete.”
