## WORK EXPERIENCE

**Nathan Daniel Music (Freelance Sound Editor/Sound Designer/Mixer)**          **May 2006 – Present**
*Founder*                                                                      *Los Angeles, CA*
- Create/edit atmospheres, beds, sound fx, sound design, foley, edit dialog, and create final mixes for Film/TV using Pro Tools, Ableton Live, and Audio Design Desk (Post Audio Reel).
- Professional Mixing and Mastering Engineer for a wide range of music styles (Mixing Reel).
- Write, compose, and produce intense, dreadful, dramatic, and emotional music for Film/TV (Composer Reel).
- Produce and co-produce bands and artists.

**1-On-1 Mixing**                                                              **March 2017 – Present**
*Consultant*                                                                   *Los Angeles, CA*
- 1-On-1 Mixing is an online service for aspiring and professional mixing engineers to improve their craft through personal, 1-On-1 Training (www.1on1mixing.com).
- As Founder, I create an opportunity for mix engineers to get valuable, real-world feedback and lessons to improve their craft through 1-On-1 Training with a professional.
  - o   I have worked with clients from all over the world, beginner to advanced, working in all different types of musical genres, with all major DAWs.
  - o   All training sessions are through video conferencing, screenshare, and a high-quality audio link.

**UBK Happy Funtime Hour Podcast**                                             **March 2014 – March 2021**
*Co-Host, Producer, and Editor*                                                *Los Angeles, CA*
- Co-hosted and produced popular audio production podcast for 7 years.
- Found talent to interview, created intro and outro themes, created show titles, show thumbnails, edited and uploaded podcast episodes to various platforms (www.ubkhappyfuntimehour.com).

**Kush Audio/Sly-Fi Digital**                                                  **Jan. 2012 – Present**
*Tech Support Guru*                                                            *Los Angeles, CA*
- Created and currently manage the email tech support system for Kush Audio & Sly-Fi Digital.
- Answer tech support emails for all things related to Kush Audio & Sly-Fi Digital software plugins.
- Manage the beta test team.
