DESCRIPTION

I am a 21 year-old music producer, audio engineer, and musician based in Pembrokeshire, West Wales. In 2022 I graduated from the University of South Wales in Cardiff with a First-Class Honours in Popular and Commercial Music. Prior to my degree I studied a BTEC in Music Performance and Production in Pembrokeshire College from 2017 to 2019 and finished with a Distinction grade.

EXPERIENCE

I have eight years of performing experience as I have been playing gigs since I was 13, leading on to support The Fratellis and Toploader with my band in 2017, when I was 16 years old. During my time at college I discovered my passion for film composing, as well as studio engineering, so I recorded various bands from my course.

During my time at university, I composed music for three short student films and four clothing advertisements.

A good example of my composing, producing, and mixing skills is the song 'A Better World' by my band Vicetrack. I wrote, produced and mixed it at my home studio in collaboration with my brother.

EDUCATION

University of South Wales, Cardiff — Popular and Commercial Music (First Class Honours)

September 2019 - May 2022

SKILLS

Producer/Engineer
